MASSEY FERGUSON

MF 5400 Series: built purely with the operator in mind

The enduring popularity of the MF 5400 Series range of mid-horsepower tractors is now further enhanced with higher levels of comfort and safety with the introduction of optional cab suspension. This new feature brings Massey Ferguson to the forefront of agricultural innovation with excellent levels of operator comfort down to 86 horsepower.

High-productivity depends on many factors within the agricultural industry. Reliable, good quality machinery and a safe and healthy working environment are two of those factors.

It is estimated that around five million working days are lost each year due to driving related activities*, leading to loss of productivity and in some cases long term health problems.

Looking after customers, staff and the machinery they use is essential. Depending on the application, you could spend up to 17 hours a day in your tractor; so comfort, practicality and ergonomics are essential attributes to a profitable and effective business.

Our priority is your comfort
The cab of the MF 5400 Series has been ergonomically

designed to reduce stress on the operator. Well-positioned controls, an adjustable driver's seat plus easy accessibility to the cab all contribute towards better working conditions.

A first on the market to use cab suspension below 100 hp, the entire MF 5400 range can be specified with cab suspension as an optional feature on all standard, flat floor cab versions.

This new cab suspension is yet another innovative feature in the MF 5400 range that allows the operator to work effortlessly in a variety of applications. The MF 5400's tough yet simple cab suspension will help to reduce driver fatigue and discomfort.

Whichever application you're working in, you can be assured that this simple system requires

no operator input and works independently and to its full potential.

Where transporting, tending, mowing and cultivating can be amongst the most arduous and repetitive of tasks, the MF 5400 Series' new cab suspension will cushion the impact of heavy-duty applications that may involve the operator being continuously jolted.

The cab suspension system uses silent bloc bushes at the front of the cab and a pair of spring assisted shock absorbers mounted at the rear.

The table opposite shows the range and applications in which the MF 5400 Series cab suspension will work at maximum productivity whilst ensuring your health and safety at all times.

Safety, Comfort, Efficiency

Average work speed**	Application	
10 - 20 kph		In bale handling - Driving across rough, uneven ground such as tramlines is made easier and more comfortable.
5 - 15 kph		In mowing/tedding/raking and baling - An application that requires a large amount of repetitive driving on uneven ground will benefit immensely from the MF 5400's new cab suspension.
10 - 40 kph		In transportation - MF 5400 Series: Perfectly in control and sitting comfortably when faced with less than perfect roads!
5-15 kph		In spraying/fertiliser spreading - Work within a safe, productive, controlled environment even at higher working speeds.

Our promise to you

Our mission at Massey Ferguson, since the company was founded, has been to design, engineer and manufacture reliable, trustworthy and innovative machinery. Machinery that people recognise the world over.

VISION

Our vision for the world of agricultural machinery has always been clear; to produce worthwhile and innovative solutions for professional farmers feeding the world. Always recognisable, the Massey Ferguson brand of products signifies technological advancement, enhanced design, strict testing and quality manufacturing which is consistently trustworthy and hardworking.

INNOVATION

We've always been one step ahead when it comes to innovation. Our founder, Harry Ferguson is proof of that.

Through continual questioning and analysis of customers' needs, our products are designed, tested and built to enhance productivity, efficiency and convenience, constantly pushing the boundaries of farm machinery.

From the simplest push of a button to technological innovations in engine and transmission efficiency, we strive to make life simpler for the operator.

LEADERSHIP

Massey Ferguson machinery is the most widely sold agricultural product in the world, making us the leaders in the agricultural arena. We've won awards for our class-leading technology and advancement in design and we're already driving ahead, environmentally and economically.

QUALITY

It takes certain distinctive attributes to make a quality product. At Massey Ferguson, this distinction starts at the drawing board and doesn't stop. Every stage of manufacturing, from the building and testing process to sourcing the best components, demands excellence. Our products and services meet the most stringent standards allowing us to deliver our promises, confidently.

RELIABILITY

We don't let a Massey Ferguson machine out of our sight until we are 100% sure it will perform to the high standards you expect. Only after rigorous and painstaking testing both in simulations and in the field, will we allow our products to leave the factory. Whatever you put your tractor through, day after day, season after season, we can guarantee we've already tested those limits and gone beyond them.

SUPPORT

Agriculture can be a tough business, that's why we make sure that you can get support whenever you need it and at crucial times of the year. Be assured of sustainability from more than 3,200 dealer outlets in over 140 countries and a comprehensive machinery distribution network. You'll be part of a dedicated family of specialists who make it their business to give you genuine, top quality service support.

Equally, we won't let an opportunity slip through your fingers. If you have the commitment but not necessarily the financial resources to compete in today's market-driven climate then AGCO Finance could have the solution. Ask your local dealer for more information.

Financial options are market specific but can include leasing, hire purchase, contract hire and loan facilities.

PRIDE

Pride means many things to us at Massey Ferguson. It's in everything we do and it shows. It's in our proud heritage, our unique product design and our ongoing support to our customers.

COMMITMENT

We are deeply committed to delivering the highest of expectations and to build quality, reliable products with innovative features that are backed by the best support packages. Ultimately, we are committed to continuous growth and profitability for all, whilst recognising the needs of both large and small businesses through professionalism and quality.
